October 24, 2003

The Honorable Bob Holden  
Governor of Missouri  
State Capitol  
Jefferson City, Missouri 65101

Dear Governor Holden:

I am pleased to submit the Appropriation Activity Report of the State of Missouri for the appropriation year, July 1, 2002 through August 31, 2003.

This report, together with the annual combined financial report of the Missouri Department of Revenue and the Office of the State Treasurer, will fulfill the statutory requirements for financial reporting under Section 32.060 of the Missouri Revised Statutes.

These statements present a comparative analysis of revenues to expenditures and appropriations to expenditures for Appropriation Year 2003. This report also includes a detailed analysis of appropriations and expenditures by departments, fund groups and major categories. This report is prepared on a budgetary (non-GAAP) basis of accounting. Under the budgetary basis of accounting, revenues are recorded when cash is received and expenditures when the liabilities for them are recorded.

Sincerely,

A handwritten signature in black ink, appearing to read "James A. Carder".

James A. Carder, Director  
Division of Accounting

APPROPRIATION YEAR 2003**

---

Each year State departments receive appropriations. These appropriations include expenditures to operate the department, expenditures made for the benefit of other departments and distributions to other entities such as local governments or school districts. The "operating costs" are the expenditures made from the department's appropriations which are used to provide that department's services. The "flow through payments" include expenditures used to fund other entities' or other departments' expenses and distributions to individuals, other entities or other departments for ultimate expenditure.

An analysis of an agency's operating costs gives a better indication of its effectiveness because operating costs are directly controlled by the agency's management. Flow through payments are normally the result of statutory or grant requirements. The spending of these moneys is more directly controlled by the entity or department which receives the flow through moneys.

The schedule on the following page shows that the moneys appropriated to an agency are not totally used for operation of that agency. This schedule shows appropriated expenditures for appropriation year 2003. However, these figures do not include appropriated expenditures of \$1,304,340,190 for refunds for overpayment of taxes and fees or investment of State money.

Expenditures for retirement, social security, health care, deferred compensation, reimbursements to Employment Security, statewide insurance, capital improvements, and building and grounds in the amount of \$2,151,898,979 have been allocated to the various departments. Most of the funding was appropriated to the Office of Administration.

The expenditures for debt service are segregated as they represent operating expenditures of the State as a whole. These expenditures are normally administered by the Office of Administration.

The expenditures for the court ordered desegregation payments (Note 4) are segregated because they are mandated by court order. These expenditures are normally administered by the Department of Elementary and Secondary Education.

**STATE OF MISSOURI**  
**NOTES TO THE APPROPRIATION ACTIVITY REPORT**  
**APPROPRIATION YEAR 2003**

---

**REVISED 10/28/03**

**Note 1 – Basis of Accounting**

The Appropriation Activity Report is prepared on a budgetary (non-GAAP) basis of accounting that records revenues when cash is received and expenditures when the liabilities are authorized for disbursement.

Revenues and expenditures are reported during a twelve-month period, July 1 through June 30. During a two-month lapse period that ends August 31, corrections can be made to the revenues and expenditures processed during the period July 1 through June 30. Prior to fiscal year 1999, the appropriation year was an eighteen-month period ending on December 31. The change in the length of the lapse period was due to the manner in which capital expenditures are budgeted and the implementation of a new financial management system.

**Note 2 – Biennial Appropriations**

Biennial appropriations, which are located in House Bills 13 and 16-19, are appropriations to be spent over two years. The balance after the first year of the appropriation that ended June 30, 2002 was rolled over into the current fiscal year. The appropriation amount reported in the current fiscal year is the rollover amount from fiscal year 2002 plus any increases and less any decreases to the appropriations, which occurred during fiscal year 2003.

Corrections were made to biennial appropriations, thereby increasing the appropriation and reducing fiscal year 2003 expenditures. Adjustments were made to the following appropriations in order to reflect these changes, so that the appropriation amount reappropriated from fiscal year 2002 would match the current year's appropriation balance.

<u>Appropriation</u>	<u>Fund</u>	<u>Agency</u>	<u>Adjusted Amount</u>
0386	0415	781	\$ 55,459
1159	0290	420	1,718
T436	0140	310	31,172
T437	0691	310	1,152

**Note 3 – Article X Distributions/Appropriated Transfers**

Article X, Sections 16 through 24 of the Missouri Constitution establishes a revenue limit for Missouri State Government. When total revenues exceed the limit, income tax refunds are generated. During fiscal year 2003, the State refunded \$6.0 million. All of the refunds were initially paid from the General Revenue Fund and various other funds reimburse their share of the refund liability through operating transfers to the General Revenue Fund as appropriated per H.B. 4.037 by the General Assembly. The total amount reimbursed from other funds was \$970 thousand.

**Note 4 – Court Ordered Desegregation**

The expenditures of the St. Louis Desegregation Plan and the Kansas City Desegregation Plan are mandated by court orders. Final payment for the Kansas City Plan was made in Fiscal Year 1999 in accordance with the mandated court order.
